

HB 837 -- MILES DRIVEN FEE

SPONSOR: Korman

This bill requires that beginning January 1, 2019, the Department of Revenue must charge and collect a miles driven fee of up to \$200 for a one-year vehicle registration, and up to \$400 for a two-year vehicle registration, of a motor vehicle with a 2019 model year or later. Upon registration renewal, the owner must be entitled to a prorated credit against the miles driven fee for that registration period if the miles driven are less than 20,000 miles during a one-year registration or 40,000 miles during a two-year registration period. All revenue from the fee must be deposited in the state road fund.

The bill also states that, barring federal law, the department may charge a flat fee or a miles driven fee on motor vehicles that travel in Missouri, but are not registered in Missouri.

This bill is similar to HB 2385 (2016).
